A MESSAGE FROM TRIBAL COUNCIL

Munahoo Neum,

Tzow Wayawee, Good August. First off, we would like to say thank you to everyone who attended the Wild Waters trip last month. It was a huge success with about 300 attendees. Please remember it is summer, and we have been experiencing some extreme heat waves. To avoid heat exhaustion please stay well hydrated and try to keep outside activities to a minimum.

For some updates here on the Rancheria. One huge update is that our Family Social Services building is now up and operational. A huge thank you to everyone who helped complete such a major undertaking. It wasn't without its heartaches and headaches, but it was well worth it all in the end. The new Emergency Building is standing, still needs a lot of interior work but looks nice next to our existing building. In conclusion the Rancheria has been nonstop busy.

In ending, even though we had a nice winter. We all still need to conserve water here on the Rancheria. So if you have any leaky toilets or runny swamp coolers. Please let us know and we can get these issues resolved. Thank you once again for all your time and energy, as always have a blessed rest of your month.

BSR Environmental Department August 2023

The Environmental Department took the kids enrolled in the Summer youth program with CAP on a Field trip to Forestiere Underground Gardens. They learned how Baldassare Forestiere used a lot of the recycled items found around Fresno to make his Underground Garden and home. He spent 40 years of his life working by himself on his underground tunnels and growing fruit trees

BSR Community Clean -up Day August 3rd 8am-10am

Come out and join the Environmental Department, and Community Activities Program in cleaning up the BSR community garden. Staff will be teaching composting basic gardening recommendations and groundwater irrigation. Breakfast will be provided for all participants.

What does the number inside the Recycling Symbol Really Mean:

It's a identification code that tells you what kind of plastic that material is made of.

- **# 1 PET or PETE**—Is the most common plastic. Soft drinks, water, ketchup
- **# 2 HDPE**—this plastic forms milk jugs, laundry detergent bottles, motor oil jugs
- **# 3 PVC**—best known for pipes, cooking oil and shampoo bottles, medical tubing
- **# 4 LDPE**—can be found in squeezable condiment bottles, toys, shrink wrap
- **# 5 PP**—this has a high melting point for hot liquids syrup, medicine bottles, straws
- **# 6 PS**—incredibly versatile plastic like soft foam, CD case, egg cartons

Back to School Community Clean-up July 31st through August 4th

A roll off will be available at the transfer station, all items need to be put inside of the roll off bin. Do not leave items next to the to the roll off.
