### A MESSAGE FROM TRIBAL COUNCIL

Munahoo Neum,

Tzow Ciyanearth, Good October. Happy Halloween! May everyone have a fun and safe time going out to celebrate this spooky holiday. Big Sandy will be throwing their annual Fall Festival at the BSR GYM on October 24<sup>th</sup> from 5-7 p.m. Please come out and join us for a night of fun, there will be a Costume contest, games, and of course lots of candy.

Now for an update. The time has finally arrived, our Tribal State Gaming Compact has now been deemed approved! This is a huge milestone for the Tribe with securing our current gaming as well as our future in the industry. The Tribe did go into detail at our last general council meeting, thank you all who was able to attend.

As far as events coming up for the month. We will be hosting another Fight Night with the Big Dawg Bare Knuckle Boxing. It will be on Saturday, October 18, 2025, here at the Mono Wind Casino. This event is one of a kind. We highly recommend it, you will not be disappointed. Details can be found on our website, and a flyer will be attached to this newsletter.

Our next general council meeting will be on December 14, 2025. These meetings are for tribal members only. No significant others or non-tribal can attend. Hope to see you all there, and like always thank you for your time and energy and may you have a blessed rest of your month.

# BSR Environmental Department October 2025

## What not to burn inside your home

Never burn household garbage, treated or painted wood, or certain types of paper in your fireplace or wood stove. This could release toxic chemicals and heavy metals into your and environment, and can increase the risk of a chimney fire.

### What not to burn

- **Pressure-treated wood:** Wood used for outdoor projects like decks and fences.
- **Plywood, particle board, and chipboard:** These products are bound with synthetic resins and glues that release harmful, cancer-causing gases when burned.
- **Painted or stained wood:** The finishes on wood furniture and scraps can release toxic fumes into the air.

### Hazardous accelerants

- **Gasoline, Kerosene, and lighter fluid:** Never use flammable liquids to accelerate a fire. The fumes can be toxic in enclosed spaces.

### Dangers of burning the wrong materials:

Can cause serious dangers to your home or yourself, including chimney fires, toxic fumes, poisoning, chemicals released into the air, and house fires. These materials cause creosote buildup and can cause respiratory issues, eye irritation, damage to your home and can even be fatal due to carbon monoxide poisoning.

## Health and Environmental Effects due to the Garnet Fire

When the forest burns, large amounts of smoke are released into the atmosphere. This smoke is made up of a complex soup of gases, microscopic particles and water vapors. The particulates that make up the smoke are quite small less than 2.5 micrometers in diameter. These particles are so small our bodies have a difficult time filtering them out of our airways. Wildfires can affect our water quality, air quality and our drinking water. To stay safe from breathing in smoke, stay indoors, filter the air inside of your home. Use a respirator. Limit outdoor activity. Have an evacuation plan. Keep a bag packed in case you have to leave your home in a hurry.

## Big Sandy Swap Meet

The environmental department would like to thank everyone that participated in our bi-annual swap meet. We had 17 vendors, with a variety of items, including \$5.00 Indian tacos, homemade baked goods, antiques, clothing, games, cold drinks. Our swap meet continues to support the department's reduce, reuse, recycling efforts. Keep an eye out for our next Swap Meet in April 2026.
