Big Sandy Rancheria Elders

Hello Elders

Wow! the Pow Wow was awesome. Thank you, all Elders that attended, if you didn't you surely missed out! All Elders was Honored with a handmade Necklaces made by yours truly Leann Anguiano. The necklaces were made with ghost beads/juniper berries, and they hold significant meaning to the Navajo culture. They are believed to ward off evil spirits and provide protection. They were strung with sinew and connected with leather. We gave out 70 necklaces to all elders at the pow wow. We also honored hand drummers that were made by the tribal council with real deer hide, sinew and hand painted by the tribal council.

June will be a busy month for elders we have several events coming up. I have attached flyers for the upcoming events.

June 7, 2025 is Honored Elders Day in Sacramento. If you would like to attend and need a ride please contact Matt Munoz. Honored Elders Day is an exciting one-day trip up and back we leave the casino parking lot around 6am and return around 5pm. They have the State Indian Museum open for free entry that day. They also have elder lunch, cultural sharing, speakers, dancers and craft booths. You will see elders from all over. On the flyer is a QR code that you can register.

June 13th 2025 is Tachi Elders gathering at Santa Rosa Rancheria. They have invited all BSR elders to attend. The Theme this year is Disney & Marvel so come dressed as your favorite character. It's so much fun with Raffles, Games, Bingo, and a Dance Contest. If you need a ride, please contact Matt Munoz 559-917-1576

June 30th and July 21st 2025 We will have Shaver Lake Day. Elders will sit at the lake, put your feet in the water and get out of the heat. Lunch will be served. We will leave BSR Gym at 9am and return when everyone is ready. If you would like to attend, please contact Leann Anguiano 559-917-1674.

All these events you are more than welcome to drive to each event or have someone drive you. As you know we only have one elder van. That holds up to 6 elders. So, if you do have a vehicle, it is appreciated if you save space for those that don't have a vehicle. Each event we can provide a gas stipend for each vehicle.

The weather is warming up so take care of yourself and stay cool. Next elders' luncheon is on June 12, 2025 at Noon in the Tribal Gym.

Special Day

Our Head Start graduation was fantastic. Our students performed "The Three Little Pig Blues," complete with sunglasses and guitars. They also sang "5 Little Speckled Frogs" and proudly recited their mono numbers, showing off their growth and confidence.

It was great to see such a turnout of families joining us to celebrate this milestone. Thank you for being part of it!

We're also thrilled to announce that our new Early Head Start program has been up and running for almost two months now. We currently have 3 infants and 5 toddlers, and they are settling in great. Our newest little students have adjusted very well and come to school each day with bright smiles, ready to explore, play, and learn.

It's been a joy to watch them grow and begin their journey with us, and we look forward to seeing their progress.

We are now accepting Head Start and Early Head Start applications for the 2025-2026 school year. If your child will be 3 years old by September 1st or are 4 years of age they are eligible for the program. For EHS if you are a pregnant woman you are eligible to receive services and resources.

Please contact HS at 559 374 0066 ext. 216 or EHS at Ext. 214 if you have any additional questions.

Climate Change-Wildfire

Warming planets and changes to the atmosphere mean more wildfires, as our ozone layer is thinning this will cause spikes in unhealthy air pollution due to smoke. Climate change brings more drought and higher temperatures that make it easy for fires to start and spread, and in turn those blazes release more climate-changing carbon into the atmosphere as they burn through forests. Climate change has been a key factor in increasing the risk and extent of wildfires in the Western United States. Wildfire risk depends on a number of factors, including temperature, soil moisture, and the presence of trees, shrubs, and other potential fuel. All these factors have strong direct or indirect ties to climate variability and climate change. Climate change enhances the drying of organic matter in forests (the material that burns and spreads wildfire), and has doubled the number of large fires between 1984 and 2025 in the western United States.

Solid Waste Management-Summer

Dealing with warmer temperatures is the perfect condition for fire especially if certain items are not disposed of properly. Even without the presence of flammable material, the dangers of compacted miscellaneous waste and recycling is a fire risk. Oil soaked rags, aerosol cans, propane tanks, batteries, e-waste, fertilizer, and even lighter fluid are often discarded improperly. Under the right conditions some of these items can spontaneously burst. For others, like lithium batteries all it takes is a little heat and friction from being pushed around in a container. And in the certain conditions, a single spark can ignite a blaze. Please contact our BSR solid waste staff to ensure any questionable items are discarded properly.

Teach your kids about sustainability.

- Recycle.
- Pick up trash.
- Sort the garbage.
- Plant a garden.
- Make laundry products at home.
- Reuse items for crafts.
- Make homemade art items.

Composting

Composting is possible during the winter months. To start, one of the most important things you can do in the fall/winter is gather leaves for use in composting. Leaves and pine needles are excellent brown, carbon-rich materials that improve compost pile aeration and reduce odors. Leaves can be stockpiled in bags or bins for use throughout the summer months. If leaves are to be stored in an open bin, you might find it helpful to cover them with a tarp in order to keep them from getting wet and matting together.

MATTRESS RECYCLING FOR BSR RESIDENCES

bye bye mattress

A Program of the Mattress Recycling Council

Recycling old mattresses? June 25th bring mattresses and box springs to the BSR transfer station.

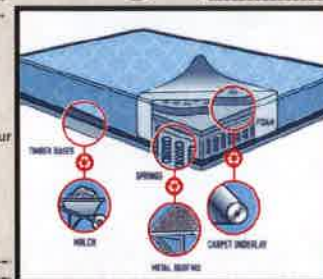

RETAILER TAKE BACK

If you are having your mattress delivered, California law requires your retailer to offer to take back your old mattress at no additional cost.

DROP IT OFF

Drop off your old mattress at no additional cost at participating locations. Then your mattress can be recycled into hundreds of new products.

MATTRESS RECYCLING MAKES A DIFFERENCE.

More than 75 percent of a mattress can be recycled into other products, diverting valuable resources from local landfills.

WHAT IS THE ECOLOGICAL IMPACT OF A MATTRESS?

Millions of mattresses end up in landfills each year, contributing significantly to waste.

120 YEARS

Mattresses take up to 800 million cubic feet in landfills and can take up to 120 years for a single mattress to decompose.

For any questions, please contact Rebecca Riley @ (559) 374-0046.
