A MESSAGE FROM TRIBAL COUNCIL

Munahoo Neum,

Tzow Ewaniwe, good May. I would like to announce that here at the rancheria we have been very fortunate not to have any major damages from this extreme weather. If this beautiful weather we're currently experiencing stays persistent, it will allow our crews to finish up some much needed housing repairs and road work.

We're getting all prepped and ready for our 22nd Annual Powwow. The grounds are looking better and better each year, as well as our event itself. It's such an honor to be able to have an event that keeps on growing and flourishing. There are three BSR Princess contestants running this year. We wish the best of luck to all these young ladies.

Big Sandy Rancheria has recently lost one of our last remaining lineal descendants, Wilbur Beecher. As an addition to this our surrounding native communities have also experienced much devastating loses. We from BSR would like to give our condolences to all our relations. Thank you for all your time and energy and as always have a blessed rest of your month.

Big Sandy Elder's

Munahoo All Elders!

I hope your Easter was a fun filled day with family and friends.

Last months meeting on April 13th, the elders enjoyed a meal. The elders participated in a raffle, and got to take home a plant. They enjoyed each others time together and had fun. The elders went to the Hard Rock Casino up near Sacramento, and had a wonderful time. The next elders meeting will be May 11th, 2023, at 12:00pm. If you have any questions you can contact Leann Anguiano at 559-374-0066.

Groundwater

Groundwater, which is in aquifers below the surface of the Earth, is one of the Nation's most important natural resources.

Groundwater is the source of about 37 percent of the water that county and city water departments supply to households and businesses (public supply). It provides drinking water for more than 90 percent of the rural population who do not get their water delivered to them from a county/city water department or private water company.

Surface Water

Surface water is any body of water above ground, including streams, rivers, lakes, wetlands, reservoirs, and creeks. The ocean, despite being saltwater, is also considered surface water. Surface water participates in the hydrologic cycle, or water cycle, which involves the movement of water to and from the Earth's surface. Precipitation and water runoff feed bodies of surface water. Evaporation and seepage of water into the ground, on the other hand, cause water bodies to lose water. There are three types of surface water: perennial, ephemeral, and man-made. Perennial, or permanent, surface water persists throughout the year and is replenished with groundwater when there is little precipitation. Ephemeral, or semi-permanent, surface water exists for only part of the year. Ephemeral surface water includes small creeks, lagoons, and water holes. Man-made surface water is found in artificial structures, such as dams and constructed wetlands.

Thank you to all of the families who participated in the Spay/Neuter and vaccination clinic and to the Animal Disaster team and West Side Rescue for funding this event!

Head Start

Big Sandy Rancheria Tribal Head Start Program

Smokey Bear stopped by for a visit on April 25th! All the students were filled with anticipation and excitement to see Smokey Bear. Cal fire and the Forestry department did a great lesson on fire safety.

May 25th will be the last day of Head Start for the 2022-2023 school year. It has been a great year of growth, friendships, and lots of fun. Our annual graduation ceremony will be May 25th at 6:00 pm at the BSR POW WOW grounds.

Parents with Head Start children moving on to Foothill next year: Please remember to turn in any registration documents and update immunizations before the end of May this will ensure your child is pre enrolled and ready to begin in August.

We are now accepting Head Start applications for the 2023-2024 school year. If your child will be 3 years old by September 1st or are 4 years of age they are eligible for the program.

Parents please remember that drop off time is between 8 am and 8:30 am. If you are going to be later than 8:30 am please call the Head Start at 374-0066 ext.216 so the teachers know to expect your child for breakfast. Head Start has a required 85% attendance policy, which is typically an absence of a day or two a month.
